### SUMMARY

I have been working as a software developer for 2.4 years, specializing in app and web development. Over the past year, I have honed my skills in developing websites and applications for both iOS and Android using a variety of programming technologies such as Python, Django, Javascript, ReactJS, NextJS and React Native.

### SKILLS

**Languages:** Python, JavaScript, HTML, CSS, TypeScript, SQL, C++, C.

**Libraries/Frameworks:** Django, RESTful API, SocketIO, Redux, Redux-Toolkit, ReactJS, NextJS, React Native Tailwind and Bootstrap.

**Tools/Technologies:** Android-Studio, XCode, ClickUp, Jira, Docker, Ubuntu, PostgreSQL, Git, MySQL, VSCode, PyCharm.

### EXPERIENCE

01/2022 – present **YMGRAD (Gateway to Study Abroad)**

2.4 years

- Developing websites and applications for iOS and Android using ReactJS, React Native, Django, and Python programming technologies.
- Working on both client and server side of the applications.
- Chat application has been Built with all basic feature for both single user and group chat on both website and react native application.
- Added many features like sending multimedia (video, audio, and documents), sending voice notes, message seen notifications, and chat notifications. Developed a chat application for both single users and group chats on both the website and react native application.
- Managing payment gateway integrations and maintenance, such as Razorpay, Stripe, PayU and Amazon-Pay.
- Being involved in all stages of the software development cycle, from planning and design to testing and deployment.
- Analyzing algorithms, modifying code, fixing bugs, generating ideas, designing user interfaces, and integrating new systems as part of my daily tasks
